

## To Decompose

### Cannibal Corpse

Cadaver filled carcasses flood the land  
Methodically emptied of bone and blood  
Left to be one with the dirt again  
To decompose  
It will end in the dirt again

He starts with the draining of liquid mass  
His victims lie helpless and wide awake  
Bodies are shriveled to skeletal form  
To decompose  
Victims die helpless while siphoned awake

Sacrificing mortal beings never to subside  
Savage beatings pulverized and no one heard the cries  
Taking all the innards out of every single corpse  
Decomposing slaughtered waits to rot

It will all end in the dirt again
