

## Set You Right

Canterbury

Hey hey hey, there's something going on tonight,  
We've got our dancers and our drumsticks on both left and right  
, Because there's new blood in town, fresh meat.  
We're all salt and pepper now.  
We're all salt and pepper now.

Don't be scared, we think you'll settle in just fine.  
Yeah we all know that you will settle in just fine, oh-oh-oh

Hey hey hey, we'll take you in and set you right,  
No one is looking for you anymore cause that was us.  
Full time eyewitnesses, we don't sleep.  
Oh you're fine, safe from danger now.  
You're fine, safe from danger now.

Don't be scared, we think you'll settle in just fine.  
Yeah we all know that you will settle in just fine, oh-oh-oh

Now there's one more of us, now we can do this all night long.  
Now there's a team of us now we can do this all night long.

Don't be scared, we think you'll settle in just fine.  
Yeah we all know that you will settle in just fine, oh-oh-oh

Now there's one more of us, now we can do this all night long.  
Now there's a team of us now we can do this all night long.
