

Puddle Splashers

Cap'n Jazz

W're busy touching till we're dizzy stupid
W're busy touching till we're dizzy stupid
W're busy touching till we're dizzy stupid

I am a puppy, a balloon, and a happy accident
Missed she teaching me myths mistold
Hold me here dearest and turn me gold
And I watched you holding up the sun

I remember her saying,
"This whole world is a waste of my time"
All I could say is,
"I wish I had something to say"

If we stand still long enough,
the sun will move around us

You can't look at the sky without looking right through it
