

## Kained But Able

Capdown

I just wanna be free to smoke the weed  
Another denied right, a right you make me fight for  
I just wanna be free to plant the seed  
Another denied right, a right you make me fight for  
I just want you to admit and to concede that if I inhale is entirely up to me  
And however you say it you're still gonna be  
Breacin' my rights and they are what I fight for

Do you really think I'm gonna take it?  
Do you really think I'm gonna take it, it not break it?  
Do you really think I'm gonna take it?  
Do you really think I'm gonna take not break you?  
Kained but able,  
Persecution just because I'm stoned  
You claim you're saving me  
Should I stand now and be grateful?  
You force me now to be so grateful  
For possession with intention  
Feel the wrath of the consequences!
