

# Fireblazin

## Capital Kings

(We've got a fire blazin' in our hearts, no we're never gonna stop  
Until the whole world knows who You are, who You are, who You are)

You came from Heaven down to Earth  
Carried the weight of every pain and every hurt  
Oh, Your life is a portrait of Your love, love  
And like a beating drum, now You are alive in us

We've got a fire blazin' in our hearts  
No we're never gonna stop  
Until the whole world knows who You are, who You are, who You are  
[x3]

We are a city that believes  
That when we're lost in You we find everything we need  
So let our lives be a portrait of Your love, love  
And just like the rising sun, You break out and shine through us

We've got a fire blazin' in our hearts  
No we're never gonna stop  
Until the whole world knows who You are, who You are, who You are  
[x2]

You wreck us, wreck us with Your love  
And forever we are Yours, we are Yours

We got a fire blazin' in our hearts  
No we're never gonna stop  
Until the whole world knows who You are, who You are, who You are  
[x2]

You wreck us, You wreck us with your love  
And forever we are Yours, we are Yours
