

# Living For The Other Side

Capital Kings

Hit up the crew then I lace up my Nikes  
I jam on the radio just to start it off right  
Let's make this night incredible, somethin'  
unforgettable  
We're gonna have a real good time  
Been workin' sixty hours this week workin' overtime  
So there's no way that I'm gonna stay in tonight  
Oh, no, we never stop 'cause we rock around the clock  
We're gonna have a real good time

Some say we're kinda crazy  
I think I'd have to agree  
'Cause that's the only way I wanna be

Every moment's like a theme park ride  
There's no way we'll let it pass us by  
Don't have to sleep, we'll have the stars in the sky  
We see the future, we're livin' for the other side  
Every second's at the speed of sound  
There's not a chance that we about to slow down  
Some people say that we are out of our minds  
We know the future, we're livin' for the other side

Royal Tailor  
Yeah, show 'em what you got, Tauren

We've only just begun  
You ask if this is real  
We're goin' hard, reachin' for tomorrow  
You wanna know how it feels  
Yeah, tell 'em how it feels

It's unbelievable, can't stop us now  
Yeah, we've lost control, turn up the volume  
So it hits the soul  
You know we got that crazy flow  
Pump it through your stereo  
CK and Royal Tailor  
Seekin' our creator

Some say we're kinda crazy
