

Out Of Control

Capital Lights

Well situated from beginning but I'm ending appalled
live to tell overrated short stories of the lady you loved
Once upon a time fairy tells took hold
manipulating when the readers threw the writers a bone
Well situated from beginning but I'm ending appalled
I'm changing on my own

I think I'm out of control I think I'm out of control
A pretty boy state of mind only got me alone
I think I'm out of control I think I'm out of control
I fancy falling apart before I'm falling in love
We only started. we only started too late, now we're parting our ways
to be one of a kind
I'll take you back if your feeling alive, I'll take you back if your
feeling alive
babe im all you need to survive, I'll take you back if your feeling a
live

Hey said the lady with a bittersweet look in her eye
"what a beautiful day" she pretended as her voice disappeared in a cr
y
I'll write you out of the story like you knew that I would
living happily ever after never happens for good
Well, your only getting what you want cause your getting a rise
I'm just along for the ride

I think I'm out of control I think I'm out of control
A pretty boy state of mind only got me alone
I think I'm out of control I think I'm out of control
I fancy falling apart before I'm falling in love
We only started. we only started too late, now we're parting our ways
to be one of a kind
I'll take you back if your feeling alive, I'll take you back if your
feeling alive
babe im all you need to survive, I'll take you back if your feeling a
live

Well freedom never let me down...
You never gave me a chance to learn.
I guess we'll figure this out...

I think I'm out of control I think I'm out of control
A pretty boy state of mind only got me alone
I think I'm out of control I think I'm out of control
I fancy falling apart before I'm falling in love
We only started. we only started too late, now we're parting our ways
to be one of a kind
I'll take you back if your feeling alive, I'll take you back if your
feeling alive
babe im all you need to survive, I'll take you back if your feeling a
live

and all I gave you was a little advice
Oh we gotta work this out
Babe I'm all you need to survive, I'll take you back if your feeling
alive
