

## Original Man

Capleton

For me say you carbon  
Different from the original man  
Well, King Selassie I is the almighty one  
And not the demonical one

Well, me see clear down in a Revelation  
One man was worthy and he is to come  
Fi sit upon the throne and burn down Vatican

Well, many are call but only few are choose  
Don't try to put your foot ina another man's shoes  
Then you know you only would a get confuse  
Impersonating rastaman do refuse  
And corruption bingiman exclude  
Nuff a dem a come with things dem a try prove  
Competition dem a run  
We know dem a go lose  
All who a try fi eat another man food  
Bwoi  
Then you know you the rude

Emperor Selassie I me choose... me can't lose

Nah try sit down ina another man chair  
Cake it so big and every man have dem share  
Nuff a dem a eagle, dragon and bear  
Bwoi you can not escape you judgement chair  
King Selassie I alone the rastaman fear  
Again again again again again

Well nuff a dem a come like a race dem a run  
Emperor Selassie I dem send me come  
The meditation from me heart and the words of me tongue  
Me come fi burn down Sodom
