

# Everything Is Everything

Cappadonna

All in the club like what? Rugged dressed up  
Hair messed up gold on my neck  
Don't sweat y'all show respect Poppa on the set  
Death threat I come a long stretch you can bet  
Love is love for real for real  
Feel what you feel Park Hill 1 0 3 0 4  
Rock caps til you can't take no more it's war  
Prepare for darts martial arts  
Let me shine keep me and mine Son of Song  
Took too long, back throwin' darts, without remorse  
Dart holocaust, slang boss  
Remain top hip-hop, drop you to your knees for these  
Big CD's, you heard it through the grapevine  
Killer Beez

Everything is everything, reality  
I keep my mind on everything, cause everything  
Ain't always everything, and everything  
That you see ain't reality, they just illusions

Everything is everything, reality  
I keep my mind on everything, cause everything  
Ain't always everything, and everything  
That you see ain't reality, they just illusions

Face to face I break bread every time  
In the world I hold mine, play it  
Now check it, see if you can comprehend  
These crossover rappers that lost they origin  
Run from the Wu this time it's more trouble  
I'm comin' for the wreck so y'all could never bubble  
Never concerned about rabbits, after my cabbage  
Cherryheads, and parrots  
Won't live in the barracks, we Don Hoe  
Buckwild with the flow, how we do  
Timbo's and full boot, vocabulary pitfall  
Fuck all, more clothes than the mall  
Let's brawl  
Wu-Tang broke radio laws, the opposite of mines  
Is yours, from sea shores to bankrupt  
I conduct, erupt like Holyfield  
Third seal, third chamber's from the hood  
Branch out, and everytime you see Don  
I'm up to no good, motherfucker  
Splash that

Everything is everything, reality  
I keep my mind on everything, cause everything  
Ain't always everything, and everything  
That you see ain't reality, they just illusions

Everything is everything, reality  
I keep my mind on everything, cause everything  
Ain't always everything, and everything  
That you see ain't reality, they just illusions

I'm all alone, I feel trouble in the street

City heats, ghetto beefs, trick or treat  
Call Chief, mad beef with MC's  
Entity, Killer Beez one machine  
Intervene, on scene self esteem  
We gleam at night, it seems like  
We too hype, hop y'all like checkers  
Projectors, we break laws, get yours  
We break jaws reunite, we upright  
It's alright, out of sight, out of mind  
I take time I develop, heads swell up  
Shut the hell up, add on, you been warned  
Mics get torn in half, I drop math  
Don't laugh, a bloodbath with this here  
Rap Shakespeare, beware, Donna-might  
Brown skin with the satellite, I represent  
Buckwild and Street Life like two cent  
For real, for real  
Love is love, for real, for real  
Everything is everything, reality  
I keep my mind on everything, cause everything  
Ain't always everything, and everything  
That you see ain't reality, they just illusions

Everything is everything, reality  
I keep my mind on everything, cause everything  
Ain't always everything, and everything  
That you see ain't reality, they just illusions

The other killers, have already shown up  
Now it'll be your turn, to die too  
We're ready anytime!
