

## Milk The Cow

Cappadonna

Let us milk this cow the best way we know how  
Park Hill projects chicka POW  
One culture return of the track slasher  
Double doser Cappadonna broadcaster  
Strivin' for perfection the only way I got  
My life back was through investin' devotion  
Movin' my soul toward the skit vocabulary  
Comin' out my ass like shit to feed my babies  
I gotta fight y'all MC's this money  
Be gettin' me high just like cheese in these tracks  
I milk for all my childhood, make me feel good  
So I keep on writin' meditatatin' in the ghetto  
Makin' love waitin' for lost minds to settle  
Then I speak out, because we all need the guidance  
Deep down inside us where you could define science  
My mother told me, when I was so stressed out  
"All you gotta do is just put your best out"  
And I did it, milky  
Milk this cow  
Milk this cow  
Milk this cow, the best way we know how  
Park Hill projects, chicka-POW!

Hold your own nigga, Razor Sharp with the art  
Remainin blown nigga, throwin darts at the charts  
Danger Zone nigga, Cappadonna  
You know the stee' potnah, Wu-Tang death before dishonor - what?

Yo, new Cappadonna is about to exhale kid  
Hold all the phone calls, stop all the mail  
Cappadonna raise hell, speak and I broke the shells  
Seen brothers that fell when I slipped  
I had my alibi tight that night, up in the Hill chillin'  
Y'all'll get shot, move away things are too hot  
Look at my spot now, friends are exiled from close distance  
I flow persistence, every time I step up, I rip reps up  
Ku Klux, my words swing around like numchucks  
This ain't for big bucks, never can quit this rap shit  
It feeds my seeds, I can barely breathe  
But y'all cats better believe keep off, the darts are soft  
While I throw these missiles, at your skin tissue  
You can't escape I absorb, gigantic crowds all aboard  
Watch out for shitty fraud, my darts slam like doors  
Makin it hard for you to get yours, selfish  
Milk this cow, the best way we know how  
Park Hill projects, chicka-POW!
