

You Turn Me On

Cappella

You turn me on - You turn me on - You turn me on
Tonight me and you, me and you
You turn me on tonight me and you, me and you

When I first met you with all your friends
I knew I'd want you 'cos you made me feel that way
Baby I wonder when it will be real
I'm gonna make it real not fantasy

You have my love now and it won't end
I know you want me 'cos you are asking me to stay
Baby I was the one who had this dream
I'm gonna make it real not fantasy
You turn me on can't you feel it
You turn me on tonight
You turn me on can't you feel it
Can't you feel you got a hold on me
And you have got a hold on me

You have my love now and it won't end
I know you want me 'cos you are asking me to stay
Baby I was the one who had this dream
I'm gonna make it real not fantasy
