

As The Moon Speaks

Captain Beyond

Listen
Jump on a moonbeam and ride
Ride it, glide it all the way
As the moon speaks
To the waves of the sea
And the ocean relic
Of the time it used to be
Many years have past
Since your vision came to me
And I think of you only
As the moon speaks to the sea
As the moon speaks
To the waves of the sea
And the ocean relic
Of the time it used to be
Many years have past
Since your vision came to me
And I think of you only
As the moon speaks to the sea
