

Magic In You

Captain Jack

The magic is in you

When it's dark - outside
Find my house - tonight
When it's cold - outside
Find me here - That's right

When you're down - and blue
Come to me - into the crew
Move on up - get on the floor
The magic in you - is the key to the door

One step back - two steps ahead
Two steps back - is driving you mad
Three steps back - two steps beyond
Don't hide away - come and get on the front yeah

Refrain:

WHOOHA, WHOAHO, the magic is in you
WHOOHA, WHOAHO, no matter what you do
WHOOHA, WHOAHO, and if you're feeling blue
WHOOHA, WHOAHO, the magic is in you

When you're sad - then cry
Free your soul - and fly
There's no shame - on you
Just be pure - and true

Luck and joy - in time
Comes to you - so fine
Move on up - get on the floor
The magic in you - is the key to the door - yeah

One step back ...
