

# I Hate You

## Capture the Crown

I hate you  
I hate more and more everyday  
I'm sick of  
Watching you bullshit your way to the top  
You're a fake  
Beam of light to the lost  
No one sees it, but me  
The words you preach  
The lessons you teach  
Aren't even your own  
There's no mind  
No heart  
No soul  
Nothing authentic involved  
Your fucking heads in the sky  
Your clothes are made of your lies  
But you wear them so proud

You thought you had it all figured out  
I can see right through you  
I I hate hate  
What what  
You've become living a lie  
You call a life

I hate you  
You've thrown more than you can change  
The hounds are waiting  
The hounds are waiting

You thought you had it all figured out  
I can see right through you  
I I hate hate  
What what  
You've become living a lie  
You call a life  
Living a lie  
You call a life  
Living a lie  
You call a life

Fake!  
You fucking fake!  
You fucking fake!  
Fakeeeee!

You thought you had it all figured out  
We can see right through you  
I I hate hate  
What what  
You've become living a lie  
You call a life

Fake  
I hate you!  
I hate you!  
Fake
