

In December

Keith Caputo

Every thing's gonna be alright
When I'm with her the taste of her tears
You're the one I adore the snow is so cold it's glistening
Time passes quickly its fading away yeah
It's fading away

There was no conversation
I heard such a sweet melody
She was singing for me yeah
It gave me a chill
And I went down to the river
We'll climb that hill to the river

Flying from tree to tree
He's lonely still when ya gonna let it roll
When ya gonna let it rock n' roll
Who's gonna who's gonna save his soul
When ya gonna let it rock n roll

And I went down to the river
We'll climb that hill to the river
Flying from tree to tree

C'mon and sit by the fire with me
C'mon and sit by the fire with me
C'mon and sit by the fire with me
C'mon and sit by the fire with me
