

Kill With God

Keith Caputo

i cant get it through my head
the glory, the pain and the death
though its been many years
you keep praying to someone(something)
well get me out of this hell
then it will be a beautiful day
my head is so heavy
so please make em well
cause i cant go to sleep
I cant get it through my head

i dont wanna drag you down
my wheels keep on spinning round and round
they say you dont know whatcha got until its gone
dont look at me as if ive lost my mind

you just have ta let it go
i could never ever ever let it go
so how the hell can you kill in gods name?
so please go to hell!

I cant get it through my head
