

our moon our stars

Keith Caputo

tell me your pain break my heart
it would not seem much pain is self chosen
and when the shake's come walkin upon your path
its the sound of your heart
its the secret of your days

so you know pain
you dont stand alone
you have always known

so i give you my pain
ill break your heart
but i can see no more crying
when the shake's come walking upon your path
its the sound of your heart
girl, its the secret of your days

so you know pain
you dont stand alone
you have always known
