Troubles Down

Keith Caputo

Smell of roses does not remain I'm crawling, crawling Like a snake I'm hung over Hung up & hung down

So I took my took my troubles down And I quit my, quit my low down ways And I took my my troubles down

I'm on a one way track Burgundy & black All is gone, all is gone So far away from home You're walking all alone The fields burn away

The music did play the smoke drifts away I put on my smile I wander off in shame Even through the tears I took my troubles, down, down, down

Smell of roses does not remain I'm crawling, crawling Like a snake I'm hung over Hung up & hung down

So I took my took my troubles down And I quit my, quit my low down ways And I took my my troubles down

It's just a passing fright As cold as ice My head began to spin Stabbing on your brain Every breath you breathe No place to hide, to hide, to hide

I can't stand this Silk & satin I can't stand this Silk & satin

Smell of roses does not remain I'm crawling, crawling Like a snake I'm hung over Hung up & hung down

So I took my took my troubles down And I quit my, quit my low down ways And I took my my troubles down
