

# I Know The Reason

Carbon Leaf

You talk tough to me and it makes me smile  
By the old church yard your feelings hide  
I know the reason  
And you won't say:  
"If we grow too close, will you push away?"  
I know the reason

And I like, that we're the same  
Waterfall...

Are you afraid to love? You afraid to smile?  
From the inside out, to the open wide?  
I know the feeling. You're way too proud  
And will they find you out if you laugh out loud?

I know, that we're the same.  
Waterfall. Umbrella in the rain  
And I won't ask why. I know the reason  
I thought you should know. I know the reason.

I'll never be the same.  
I clearly see umbrella in the rain  
Over you and me  
You are the best thing. Let it show  
And if we grow too close, let it undertow  
This is the best thing

I know, that we're the same.  
Waterfall. Umbrella in the rain  
And I won't ask why. I know the reason  
I thought you should know. I know the reason.

Should we fall down?  
fall down. fall down. fall down  
fall down. fall down.

I know, that we're the same.  
Waterfall. Umbrella in the rain  
And I won't ask why. I know the reason  
I thought you should know. I know the reason.
