

She's Gone (...For Good This Time)

Carbon Leaf

Round and round we do this song-and-dance
Sail the rocky ground romance is not a novel end of story
She thinks I'm the one and who's to say she's not the one
But for the time I just want some fun end of story

She threatens to leave nearly every single week
Cuz I'm lazy and can't disagree
Now she's walking by and she just said have a nice life
And I do believe she's leaving me for good this time

Well she's gone. Gone for good this time
No yes why?
All she had to do to win my heart was say goodbye
She's gone. Gone for good this time
No yep why?
If you wanna win my heart just say goodbye, goodbye
One more time...

It makes her mad when I talk in circles
I know it's bad but I get that way when cornered end of story
The tide has turned and in her head the wheels are turning
Burning red and churning up some troubles and they're for me

She threatens to leave me every week
She says it drives her mad, and I can't disagree
At the risk of losing something great
I paused... she caught me hesitate
And now she's leaving me for good this time

Well she's gone. Gone for good this time
No yes why?
All she had to do to win my heart was say goodbye
Well she's gone. Gone for good this time
No yes why?
If you wanna win my heart just say goodbye, goodbye
One more time...

Round and round we do this song-and-dance
Sail the rocky ground romance is not a novel end of story
She thinks I'm the one and who's to say she's not the one
But for the time I just want some fun end of story

She threatens to leave me nearly single week
Cuz I won't grow up and talk about L... L...
Lo and behold dear the only thing bigger
Than my fear of commitment is saying so long

She's gone. Gone for good this time
No yes why?
All she had to do to win my heart was say goodbye
Well she's gone. Gone for good this time
No yes why?
If you wanna win my heart just say goodbye, goodbye
If you wanna win my heart just say goodbye, goodbye
one more time
