

## The Boxer

Carbon Leaf

Couldn't ask for a better day, two by two  
To the ring to the right point of view  
Each retreat to the corner that's definied by you  
To the ring to the right point of...

Lonely Reign  
She is the Boxer, she knows  
when and where to strike  
He is the Boxer, he knows,  
no peaceful sleep tonight

Caught the downfall of Pete and May, Ryan too  
(He did not approve of Callie's mood)  
Doctor Mike was 'fight or flight' at Dundrum School  
To the right to the right point of...

No return. No passion left to burn.  
The Boxers grow weary.  
Their eyesight...blurry view.

Lonely Reign  
She is the Boxer, she knows  
when and where to strike  
He is the Boxer, he knows,  
no peaceful sleep tonight

All's quiet on the front. Smokey room.  
Boxer standing tall, peering through  
Finding no one left to fight  
What to do?  
To the ring to the right point of view...

Lonely Reign  
She is the Boxer, she knows  
when and where to strike  
He is the Boxer, he knows,  
no peaceful sleep tonight
