

This Is My Song!

Carbon Leaf

My name is Luck, this is my song
I happened by while you were gone, well...
I apologize that I could not stay
But I hope good things swing your way
I know they will... here's your horseshoe
So best of luck to you

For the stable running brave
From the cradle to the grave
This is my day, this is my song
I am alive... what can go wrong?
If we're on our way-oh, ok let me know
If we're on our way-oh, ok then, let's go

My name is Hope, Luck just ran out
He said he'd return, without a doubt
(ah, but don't you believe him!)
Oh, I happen to have a message from Love
She told me she knows what you've been dreaming of
My name is Hope, this is my song
When things go wrong

For the stable running brave
From the cradle to the grave
This is my day, this is my song
I am alive, what can go wrong?
If we're on our way-oh, ok let me know
If we're on our way-oh, ok then, let's go

Through the windswept countryside
Across the great divide
For the stable running brave
From the cradle to the grave

This is my day, this is my song
As long as I'm alive what can go wrong?
If we're on our way-oh, ok let me know
If we're on our way-oh, ok then, let's go
