

Wandrin' Around

Carbon Leaf

Put me in new direction
Point me to the edge of this world
With a warm heart and cold complexion
I'm feeble with a flag unfurled

Where to today?
M-miles away

And as I sigh the long goodbye
What will be found wandrin' around?
And as I sigh the long goodbye
What will be found wandrin' around?

Sister, where you going?
I have one question, maybe four
Sister, where you going?
We race straight back to where we were before

Where to today?
M-miles away, miles away

And as I sigh the long goodbye
What will be found wandrin' around?
And as I sigh the long goodbye
What will be found wandrin' around?

And as I sigh the long goodbye
What will be found wandrin' around?
And as I sigh the long goodbye
What will be found wandrin' around?

Wandrin' around
Wandrin' around

Wandrin' around
Wandrin' around
Wandrin' around
Wandrin' around

Wandrin' around
Wandrin' around
