

# Edge of Darkness

Carcass

A rising, bleak dawn  
A permanent sunset  
On the human condition  
A boot perpetually treads

Illumination snuffed  
Fowards on time will march  
Holding as a mirror  
Condemning to repeat the past

Endtime  
The realms of a setting sun  
Twilight  
A new age has begun  
Decline  
Decension to a new dark age  
Blank time  
An old world not quite so brave

Right on the edge,  
Of a new dark age,  
Back on the edge,

We stand...on the edge of darkness

A fading dusk  
Empty, blanketing shade  
A dying sun  
Only blackness radiates

An aeon ends  
A millenium overturned  
Time lies in embers  
As barren horizons burn

End time  
The realms of a setting sun  
Twilight  
A new age has begun  
Decline  
Decension to a new dark age  
Blank time  
An old world not quite so brave

Right on the edge,  
Of a new dark age,  
Back on the edge,

We stand...on the edge of darkness

Endtime  
The realms of a setting sun  
Twilight  
A new age has begun  
Decline  
Decension to a new dark age  
Blank time

An old world not quite so brave

Right on the edge,  
Of a new dark age,  
Back on the edge...

Right on the edge,  
Of a new dark age,  
Back on the edge...
