

# Embryonic Necropsy and Devourment

Carcass

...Aborted gestation...foetal mutilation...  
...Abortive secretions...embryonic fermentation...

Your crotch spawning afterbirth  
A congealing sprog basted in cess  
Palpitations spew a foetus  
Sprawling in this mess...  
Flowing lochial discharge  
Of copious womb lining torn  
The mutilated still-born mangled  
By the whiplashing umbilical cord...

Mixing together post-natal juices  
The dead infant used as stock  
Slurping this horrendous concoction  
Eat the cervical slop...  
Lading our aborted derbis  
Oozing guts chomped in your maw  
The caesating premature baby  
Nurtured in post-partum gore...

Suck cess on a plate. lick its pus from a spoon  
Gnaw at rashes on a dish, munch on the expelled womb...

Its testicles incised - the foetus liquidized  
Whick the parasite - the gross remains baptized...  
[Solo: paturient paste sandwich]

Stagnant placenta and smelly fluids  
The stiffening dead babe's crib  
Disembowelling and gutting

Grating bone and rib  
Fragile limbs pulverised  
Dismemberment is so cruel  
Soggy organs and paturient broth  
Give piquance to this sickly gruel...

Mixing together post-natal juices  
The dead infant used as stock  
Slurping this horrendous concoction  
Eat the cervical slop...  
Lading our aborted derbis  
Oozing guts chomped in your maw  
The caesating premature baby  
Nurtured in post-partum gore...

Drink bile from a cup, gulp its phlegm from a pot  
Eat mucus on a saucer, choke on embryonic clots...  
(Pasteurised foetus goulash)
