

Firm Hand

Carcass

Firmhand, iron fist, an ardent dexterous weeding process
Overlord with a strong grip, viral containment, a harvesting grid

Firmhand - unnatural selection is applied
Firmhand - the final solution, eugenocide

Hate is the law, love under will
Hate is their law, love under will

Transfusing, contagion breeds
Multi-cultured epidemic is released
Held firm, crushing grasp
A painstaking, callous, arduous task

Firmhand - indiscriminate selection is applied
Firmhand - the final solution, eugenocide

Hate is the law, love under will
Hate is their law, love under will
With slight of their firmhand
And deviancy is cleansed

Firmhand - unnatural selection is applied
Firmhand - the final solution, eugenocide

Hate is the law, love under will
Hate is their law, love under will

With slight of their firmhand
With the might of their firmhand
With slight of their firmhand
And deviancy is cleansed
