

## Maggot Colony

### Carcass

Oozing chyme reeks as your duodenum is hacked  
Secreting gastric juices, enzymes melt your faecal tract  
Torn major arteries, your corpse with blood is drenched  
Your mouth is ripped inside-out as your oesophagus is wrenched

Maggots and grubs bore into the mouldy remains  
Masticating lymph, caked blood and cankered decay  
Maturing brains play host to the grisly fete  
Stuffed anal passage, served on a plate

Purulent torso is a perfect maggots meal  
Spilt cerebrospinal fluid is sucked up with zeal  
Botulism vitiates the emulsifying bile  
Liquidized gall bladder, viscid pus smells vile
