

## No Regrets

### Career Soldiers

The past is just that, the past  
I'm trying to make the good times last  
Light that match leave that bridge behind  
Because regret is such a waste of time

My failures I've learned to accept  
I've got one life, no more and no less  
My life, my way, fuck what they expect  
Never look back, no regrets

It is time that we learn to never look back  
On mistakes we can't undo

Keep looking forward, keep pushing on  
Embrace the pain because it will make you strong  
Decisions were made, right or wrong  
I won't dwell on those days, they're long gone

Never look back, no regrets  
I'm tired of never feeling complete  
And holding on to things that I don't need  
I'll bury the past that nearly buried me  
We've got scars to show where we've been  
We've salted our wounds to not forget again  
Here's to all of our new ends
