

## Back Home

Caribou

If you want to know a secret  
What are you waiting for?  
If you want to ask me something  
I can tell you so much more

If you want to cause me trouble  
It's not up to me  
I know that there's something missing  
Does it mean you're leaving me?

How can we fix our love?  
Now that we know it's broken  
I can only take so much  
Your kiss and your touch are both like a poison

Where did it all go wrong?  
Why is this what we've chosen?  
I can only do so much to fix  
All the things that went unspoken
