## **Back Home**

## Caribou

If you want to know a secret What are you waiting for?
If you want to ask me something I can tell you so much more

If you want to cause me trouble
It's not up to me
I know that there's something missing
Does it mean you're leaving me?

How can we fix our love?

Now that we know it's broken

I can only take so much

Your kiss and your touch are both like a poison

Where did it all go wrong?
Why is this what we've chosen?
I can only do so much to fix
All the things that went unspoken
