

# January Heart

Carina Round

You've got me with a heavy heart  
I love your January heart  
You've got me with a heavy heart

The sky is falling in my head  
Count your stars  
Wish me dead

You fell like a child into my arms  
I did not mean to bring you harm

When the day comes to an end  
So ugly and so fierce  
With the darkness moving in  
The shadows disappear

You've got me with a heavy heart  
I love your January heart  
You've got me with a heavy heart

You kept my secret, still intact  
I kept your heart  
But you stole it back

It's much too early but it's time to go  
I love you more  
Than you'll ever know  
Than you'll ever know

When the day comes to an end  
So hopeful and so real  
With the darkness moving in  
The shadows disappear

You've got me with a heavy heart  
I love your January heart  
You've got me with a heavy heart

.

You've got me with a heavy heart  
I love your January heart  
You've got me with a heavy heart

It's much too early but it's time to go  
I love you more than you'll ever know  
Than you'll ever know
