

# Come Back To Me

Carl Smith

Come back to me when roamin' days are over  
Go have your fling go dance and sing and get it over  
Come back to me when laughter turn to sorrow  
Though you must roam love's best at home think of tomorrow  
Come back to me when life has lost its lure I'll be near sincerely yours  
I understand I know that you must leave me  
Go on and roam then come back home come back to me  
Come back to me
