

# Emotional

Carl Thomas

I knew you when  
I had a friend  
Very deeply  
Lovely within  
But somehow we got loose  
From what was oh so tight  
Somewhere we went wrong  
When we were oh so right

What's a man to do when he just can't take no more  
What am I to do when my heart leads me to the door  
Now we've tried and tried again  
But now this is the end  
Tell me what's the use of holding on  
If we can't be friends

I'm emotional  
And I can't let go  
I am trying to hold on to you  
Though it hurts me so  
Gotta let you know  
That the love we once shared now is through  
Say goodbye to you

You seem to hurt me purposely  
I didn't understand it  
Oh girl, why me?  
I had no choice  
What was best for us  
Was to terminate our love and be free

What's a man to do when he just can't take no more  
What am I to do when my heart leads me to the door  
Now we've tried and tried again  
But now this is the end  
Tell me what's the use of holding on  
If we can't be friends

I'm emotional  
And I can't let go  
I am trying to hold on to you  
Though it hurts me so  
Gotta let you know  
That the love we once shared now is through  
Say goodbye to you

I'm emotional  
And I can't let go  
I am trying to hold on to you  
Though it hurts me so  
Gotta let you know  
That the love we once shared now is through  
Say goodbye to you

What's a man to do when he just can't take no more  
What am I to do when my heart leads me to the door  
Now we've tried and tried again

But now this is the end  
Tell me what's the use of holding on  
If we can't be friends

I'm emotional  
And I can't let go  
I am trying to hold on to you  
Though it hurts me so
