## **Somethin' Bout You**

**Carl Thomas** 

There are certain feeling that I have for you They've been bubbling Since the day that we were introduced

I don't know what to do Cause I'm so gone over you And I... don't know why I feel this way

Don't quite know what it is Something bout you baby Something bout you baby Not for sure what it is Something bout you baby Something bout you baby

It's the little... things you do that turn me on. Like a pillow... you're so soft, baby we belong together

Is it your voice or way that you talk Whatever it is I'm loving it Is it your eyes Or pretty smile Whatever it is, I'm loving it.

Something bout you Something bout you Something bout you Something bout you...
