

# One Love

Carlene Carter

Time and time again I've tried  
To give it up and stop my rovin' eye  
I think I'd really like to settle down  
But I can't find a man to keep my feet from running 'round

My mama told me when I was a child  
To play the field but don't go running wild  
'Cause somewhere there is someone just for me  
Some great big love just waitin' for this girl from Tennessee

One love, one love, one great big love  
One love, one love, one great big love  
One love, one love, one great big love

I'm searching for a love that's gonna last  
The kind of love that won't be fading fast  
I'm lookin' for a kiss that's gonna start  
A raging fire in my soul to melt my aching heart

One love, one love, one great big love  
One love, one love, one great big love  
One love, one love, one great big love

One love, one love, one great big love  
One love, one love, one great big love  
One love, one love, one great big love
