One Way Ticket

Carlene Carter

You've got a one way ticket into my heart You've got a one way ticket into my heart

I won't be the one you won't keep I won't be your fool I don't bite the lips that kiss me like you do You say you've got something That makes you unique I can tell you I got something Every little boy needs

You've got a one way ticket into my heart You've got a one way ticket into my heart

You won't be some dream I'm dreamin' I'll be wide awake If I closed my eyes I'd miss it and what a waste You won't get the better of me I'm the best If you need a vacation I could do with a rest

You've got a one way ticket into my heart You've got a one way ticket into my heart

Say you'll be mine, all mine, all mine Don't hesitate, don't wait it's too late Just give your heart a break Be mine, be mine

You've got a one way ticket into my heart You've got a one way ticket into my heart

Hearts of gold are hearts to mould So come and work on me I understand that underdstanding's hard to be I want an angle to straighten me out Got a secret I'm keepin' Keepin' ya shouting about it

You've got a one way ticket into my heart You've got a one way ticket into my heart
