

# Radio Sweetheart

Carlene Carter

My head is spinning and my legs are weak  
Who's step dancin', can't hear myself speak  
Hopin' the eyes of the ugly girls  
Will settle for the lies of the last chances  
Where slow motion drunk pick wallflower dances  
You come here lookin' for the right to glory  
Go back home with a heart like starry  
I can't hardly wait around  
Until the weekend comes to town

Play one more for my radio sweetheart  
Hide your love, hide your love  
Though we are so far apart  
We got to hide your love  
'Cause that's the way the whole thing started  
I wish we had never parted

When it's late and the night gets colder  
Don't lay your head on any other shoulder  
Some hide themselves out for a good time  
But you and I we're havin' so ...  
So I keep on sayin'

Play one more for my radio sweetheart  
Hide your love, hide your love  
Though we are so far apart  
We got to hide your love  
'Cause that's the way the whole thing started  
I wish we had never parted

Play one more for my radio sweetheart  
Play one more for my radio sweetheart  
Play one more for my radio sweetheart  
Play one more for my radio sweetheart  
Play one more for my radio sweetheart ...
