

# I'll Be Waiting

Carlos Santana

It's been so long since I've seen your face  
Yet I know soon I'll have your embrace  
I'll be waiting  
Waiting just for you

Life keeps afloat and my love grows and grows  
You are the light, girl, you're the light and the way  
I'll be waiting  
Waiting just for you

Oh, it's been a long by, I don't mind  
Rhythm deep, to know the earth  
Keep waiting, waiting  
Waiting just for you, oh

Life keeps afloat and my love grows and grows, yeah  
You are the light, you are the light and the way, baby  
Keep waiting, waiting  
Waiting just for you, oh
