

# Right Now

Carlos Santana

Somebody deceived you,  
Your hearts broken into pieces  
Right now (I,)  
I know how you feel  
I'm with you, here for you  
I know just what you have been  
Through  
Ooo, Baby, I know how you feel

But don't forget about tomorrow  
Put aside your sorrow  
And believe in me  
I'm waiting here deep down  
Inside you  
For my love to guide you  
Bring you back to me

I love you, said I love you  
Right now!  
I need you, said I need you  
Right now!  
I want you, said I want you  
Right now!  
I love you, said I love you  
Right now!

You sit there pretty baby  
Why don't you stop anticipating  
Ooh yeah, I want to give love  
To you  
I'm standing here and waiting  
Your tears falling down like  
Raindrops  
Ooo, I want to give love to you

But don't forget about tomorrow  
Put aside your sorrow  
And believe in me  
I'm waiting here deep down  
Inside you  
For my turn to guide you  
Bring you back to me

I love you...

When darkness comes  
And it surrounds you  
There's a light inside you  
Let it show the way  
No matter how far you have fallen  
You can hear the callin'  
This is what is said

I love you...
