

# Just Another Mountain

Carly Goodwin

Once again  
Here I go  
Looking up from these foothills below  
Wondering how I'll  
Ever reach the other side  
I could look at it  
Like it can't be done  
Tuck tail, turn and run  
Look that heartache  
Right square in the eye  
Cut it down to size  
I'm getting nowhere standing here like this  
So why waste time when I know it's

(Chorus)

Just another mountain  
My heart has to climb  
There's no way around it  
But I know I'll survive  
'Cause it ain't no big deal  
This heart is gonna heal  
One tear at a time  
It's just another mountain  
Baby I'll be fine

Ain't the first  
Won't be the last  
So why should I  
Overreact  
At the sign of  
One more bump in the road  
I could put it off  
But what good would that do  
'Cause I know making my way over you is

(Repeat Chorus)

Soon I'll be standing on top  
Touching the sky  
Heading downhill  
And saying goodbye  
To just another mountain  
No there's no way around it  
But I know I'll survive  
'Cause it ain't no big del  
This heart is gonna heal  
One tear at a time  
It's just another mountain  
Baby I'll be fine
