

Just Another Mountain

Carly Goodwin

Once again
Here I go
Looking up from these foothills below
Wondering how I'll
Ever reach the other side
I could look at it
Like it can't be done
Tuck tail, turn and run
Look that heartache
Right square in the eye
Cut it down to size
I'm getting nowhere standing here like this
So why waste time when I know it's

(Chorus)

Just another mountain
My heart has to climb
There's no way around it
But I know I'll survive
'Cause it ain't no big deal
This heart is gonna heal
One tear at a time
It's just another mountain
Baby I'll be fine

Ain't the first
Won't be the last
So why should I
Overreact
At the sign of
One more bump in the road
I could put it off
But what good would that do
'Cause I know making my way over you is

(Repeat Chorus)

Soon I'll be standing on top
Touching the sky
Heading downhill
And saying goodbye
To just another mountain
No there's no way around it
But I know I'll survive
'Cause it ain't no big del
This heart is gonna heal
One tear at a time
It's just another mountain
Baby I'll be fine
