

# New Night Dawning

Carly Goodwin

Baby there ain't no looking back  
Just ten more miles to Austin  
City lights shine like a chandelier  
These lovesick blues I just lost them  
Old regrets I just tossed them to the wind

(Chorus)

Hey I wanna hear a guitar ring  
In a new lover's arms I wanna spin  
I can feel my heart taking wing  
There's a new night dawning  
There's a new night dawning

Play me a song baby I ain't heard  
That don't know old reminders  
Ain't no need holding on to the past  
'Cause I can feel the beat slowly rising  
Like the moon on the horizon  
Don't it shine
