

# A World All Soaked in Blood

Carnal Forge

Casualties, the world turns evil when you lose  
Blind, my eyes are filled with blood  
Execute, this world of myths we've built  
Strangled it, hacked it to pieces, fucking pieces

Destroyed, eaten alive by my own fears  
Drained, all my views of life erased

Wounds that will never heal  
Tortured, i'm chained inside the crypt  
Burning the future an ocean of fire

A world all soaked in blood
