

Sweet Bride

Carnal Forge

I crack your bones
I fuck your mind
I rip your soul to pieces
And burn your fucking eyes
The end is near my sweet, sweet bride
Exploding anger is bursting inside
No remorse you will die
Filthy messed up my sick fucked up brain
Let me introduce you to pain

Let me introduce you to pain

I wreck your face and crush your skull
No sympathy for your cries
I used to hug and kiss you
Now i'm gonna rape and kill you
I like it when you scream you fucking bitch
You make my dreams come true
Receive my cascade of sick semen
I succeeded to love you in every way

Exploding anger is bursting inside
No remorse you will die
Filthy messed up my sick fucked up brain
Let me introduce you to pain

I crack your bones
I fuck your mind
I rip your soul to pieces
And burn your fucking eyes
The end is near my sweet, sweet bride
Exploding anger is bursting inside
No remorse you will die
Filthy messed up my sick fucked up brain
Let me introduce you to pain

Let me introduce you to pain
