

# Testify for My Victims

Carnal Forge

At peace, unaware, that mask  
It's coming off now  
Pretend that you're someone else  
One you could never be  
One they could never tame

Hounds of the haunting greed  
Fake your revolution  
Will you prophesy another lie  
Testify  
Worlds end  
Testify  
Worlds end

Testify for my victims  
Testify for my victims

A greater despair life's pulled from under me  
We will not maintain  
They are the victims  
Scarred by a world where  
We're all dying young

Bliss, Unaware it's 'bout time  
You woke up. Now!  
Can't pretend that you're someone else  
You're just as lost as me

This; A declaration of war  
My contribution  
Which no one will survive  
Testify  
Worlds end

Testify for my victims  
Testify for my victims

A greater despair life's pulled from under me  
We will not maintain  
They are the victims  
Scarred of a world where  
We're all dying young

We flag with a warning sign this devastation  
Torn from a cradle of broken hope  
A war torn bastard nation  
We, the disgrace, the crown of evil-ution  
Befallen from graces, the greatest lie  
We're the fallen ones

A greater despair life's pulled from under me  
We will not maintain  
They are the victims  
Scarred of a world where  
We're all dying young

... Worlds end
