

## Adornment Of The Sickened

Carnifex

The precious passing of a beautiful face.  
An inhuman perversion from on mistake.  
Degeneration.  
Complete removal of the heart.  
Adornment of the sickened.  
This is the crowning of the undead.  
Now I watched in embittered sorrow.  
And dream of her in death, dream of her in death.  
On my own back, turned from the light.
