

## Last Words

Carnifex

I wander between worlds  
And the dead speak to me  
I don't know myself anymore  
I don't know who to believe  
They're with me now singing me to sleep  
These are my last words, then I can dream

These voices are the silent killers  
Is death all that's left for me  
These thoughts have become cages  
And my demons got the best of me

Is this too dark for you yet  
Knowing I've pictured the way  
I'll take my last breath

In my heart there are places no one has seen  
Down there it's only darkness  
And if you saw it, you'd swear it wasn't me

These are my last words  
Death is singing me to sleep [2x]

These voices are the silent killers  
Is death all that's left for me  
These thoughts have become cages  
And my demons got the best of me

I wander between worlds  
And the dead speak to me  
I don't know myself anymore  
I don't know who to believe  
They're with me now singing me to sleep  
These are my last words, then I can dream

Is this too dark for you yet  
Knowing I've pictured the way  
I'll take my last breath

In my heart there are places no one has seen  
Down there it's only darkness  
And if you saw it, you'd swear it wasn't me

These are my last words  
Death is singing me to sleep
