Dr. Wanna Do

Caro Emerald

I just made an appointment For a special rendez-vous To see a man of miracles And all that he can do

I checked in at reception Put my hat onto my lap And when he walked in dressed in white I had a heart attack

My eyes went ooh My voice just cooed My mind let loose I'll stay forever, it's up to you

(Dabedebedibedabedudohdoh)

Doctor I want you Mmm, my Doctor Wanna Do I can't get over you Dr. Do anything that ya Wanna Do Doctor I want you Mmm, my Doctor Wanna Do I can't get over you Dr. Do anything that ya Wanna Do

I sat down and I waited 'Til I heard my name get called It's like I'm at the races And I think I won them all

He asked me to step forward First I caught my breath, and ran For endless observation In the hands of Superman

My eyes went ooh My voice just cooed My mind let loose I'll stay forever, it's up to you

(Dabedebedibedabedudohdoh)

Doctor I want you Mmm, my Doctor Wanna Do I can't get over you Dr. Do anything that ya Wanna Do Doctor I want you Mmm, my Doctor Wanna Do I can't get over you Dr. Do anything that ya Wanna Do

Come over here and give me some medicine Move a little closer so my head can spin A little bit of potion makes my fever go Get it out of me me like a volcano My eyes went ooh (uhuh uhuh) My voice just cooed (you know it) My mind let loose Mmm, Dr. Love

(Dabedebedibedabedudohdoh)
