

# All the Reasons to Live

Carola

Once I lived my life alone  
So far away in darkness  
My soul was lost in time  
Tried to make it on my own  
I built a bridge of coldness  
Afraid to cross the line  
I opened my eyes and you were there

You gave me all the reasons to live  
My dreams now I will give  
Cause when you touched me  
Like a child you set my heart free  
I won't be hiding anymore

I have all the reasons to live  
My heart tries to forgive  
The memories I left behind forever  
You show me the way

Looking back through all the years  
I tried to touch those moments  
I gave my heart away  
Was it worth so many tears?  
The pain I felt was endless  
Sometimes you have to pay

You called out my name and I was there

You gave me all the reasons to live...

And sometimes when I feel I can't go on  
I hear your voice and close my eyes  
We make our stand together so strong  
Under the lights of heavenly skies

I have all the reasons to live  
My heart tries to forgive  
The memories I left behind forever  
You show me the way, show me the way
