It's Gonna Work Out Fine

Now we've been putting each other Through a hard time And it's a mighty good feeling To know we're gonna work it out It's gonna work out Yeah, it's gonna work out fine

Take a look at the way it's going now Makes you want to give a sigh of relief You know the last thing I ever Wanted to do was to give you any grief

I guess it was a situation That was bound to come up someday But our feeling for each other won out And I'm oh so glad to say

We've been putting each other Through a hard time And it's a mighty good feeling To know we're gonna work it out It's gonna work out Yeah, it's gonna work out fine

Even the best of relationships Run the risk of going awry There's a lot two people who care About each other can do to make each other cry

Ain't it funny how it took a reunion To help us to really see With each other is the only Way we can ever be

We've been putting each other Through a hard time And it's a mighty good feeling To know we're gonna work it out It's gonna work out Yeah, it's gonna work out fine

Oh, it's gonna work out fine I know it's gonna work out fine Oh, it's gonna work out Yeah, it's gonna work out I know it's gonna work out fine It's gonna work out fine It's gonna work out fine
